

SMART TOOLS FOR SHARP MINDS

The physical compass and ruler are fully compatible with i3LEARNHUB and facilitate the drawing process on touchscreens. The software provides snapping guidelines to draw geometric figures and automatically optimizes drawings on the whiteboard.

Press the tool on the touchscreen and i3LEARNHUB will instantly recognise it, automatically activate the pen tool and launch guidelines to assist in the drawing process. When the tool is released, the software launches the corresponding digital measuring tool for digital modifications.

Physical tools

Full size whiteboard tools to enhance math and geometry lessons.

Requirements

Our AR tools work best on a touchscreen with > 6 touch points.

EASY AND EFFECTIVE

Teachers can enjoy the ease of use of a traditional, physical measuring tool, while i3LEARNHUB digitally optimizes their drawings. The software provides snapping guidelines to ensure optimal accuracy and make it easy to draw large objects.

DIDACTIC ADVANTAGES

The physical tools mimic the appearance of standard measuring tools used by teachers in class to clearly show the drawing process and the results to be achieved. Students can easily follow the teacher's movements on the screen and repeat his or her actions to complete their exercises.

PRODUCT DIMENSIONS	PROTRACTOR TRIANGLE	RULER
L x W x H (mm)	600 x 300 x 45	1000 x 80 x 56
Weight (g)	390	830

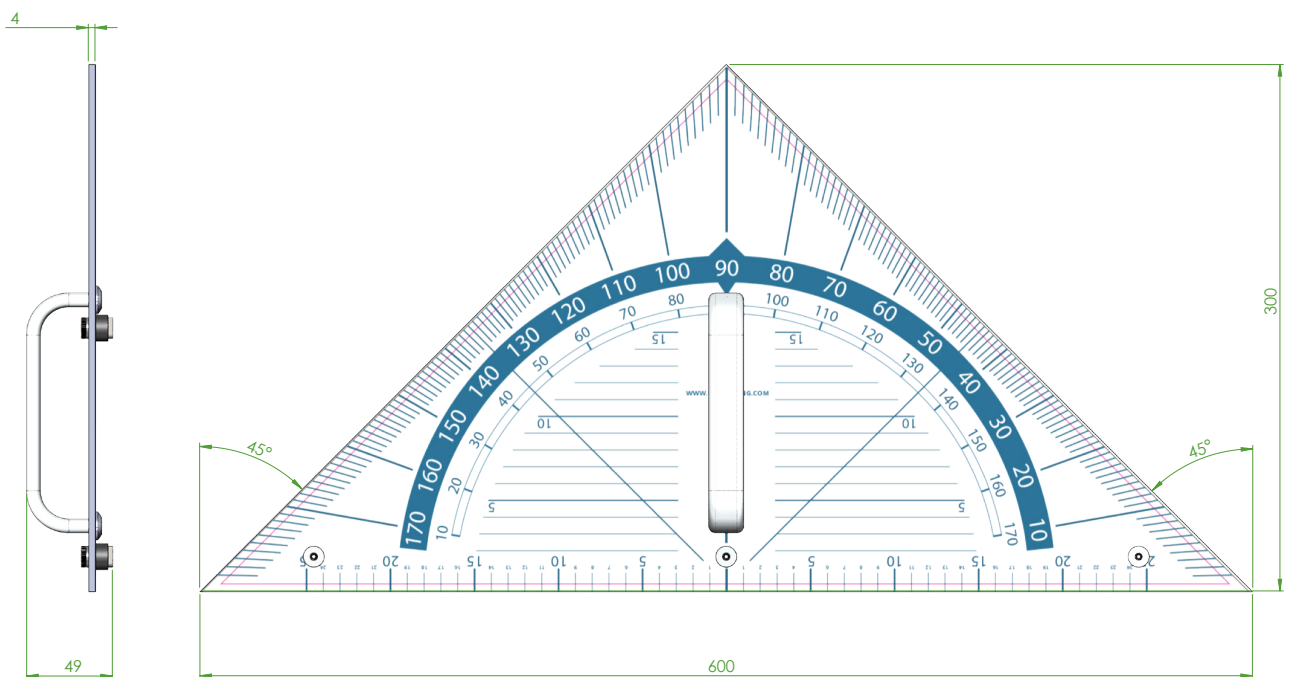

SHIPPING DIMENSIONS		
L x W x H (mm)	620 x 310 x 55	1020 x 100 x 76
Weight (g)	1160	850

CONSTRUCTION & FINISHING		
Body	Plexi	Plexi
Tips	Felt	Felt
Handle	Aluminium	Aluminium
Tip holders	PLA	PLA

WARRANTY & CARE	
Warranty	2 years

ADMINISTRATIVE INFORMATION		
Norms	CE: NEN-EN 14434	
EAN-code	5425035797476	5425035797469
Made in	Belgium
